AvePoint Cloud Backup
For Microsoft 365

Complete Power Platform Backup & Recovery

Comprehensive Backup

An unlimited backup service for your Power Platform objects in Power BI workspaces, apps, and flows. Currently supporting Power BI workspaces and Power Automate only – Power apps support coming soon.support coming soon.
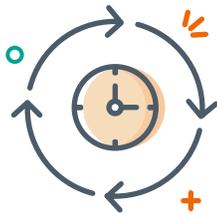

Recovery in Minutes, Not Days

Schedule restore windows, or perform granular rollback, easily restore your Power Platform artifacts for Power BI workspaces and flows.

Worry-Free Backup

Run automatic backups up to four times a day and retain 100% of your data one year. Unlimited backup subscriptions give you the flexibility you need, and the protection you want.

Backup on Your Terms

Choose to securely store your Power Platform backup data in our scalable Azure Storage, your private cloud, or in a data center with a vendor of your choice.

PROTECT THE INSIGHTS, APPS, AND AUTOMATION THT DRIVES YOUR BUSINESS

Your organization has built reports, automation, and apps to create agility and efficiency. Organizations make thousands of decisions daily based on the insights and analytics that surface through collaboration tools like Power BI. What processes do you have in place to assure your teams you can bounce back quickly if these tools disappear because of user error, bad actors, or an outage? Protect your data-driven culture with backup for Power Platform.
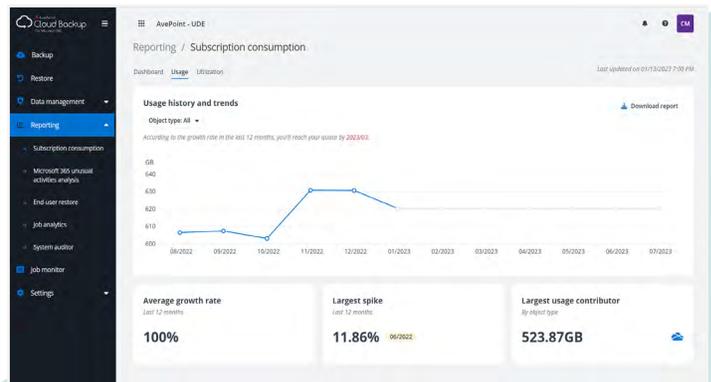

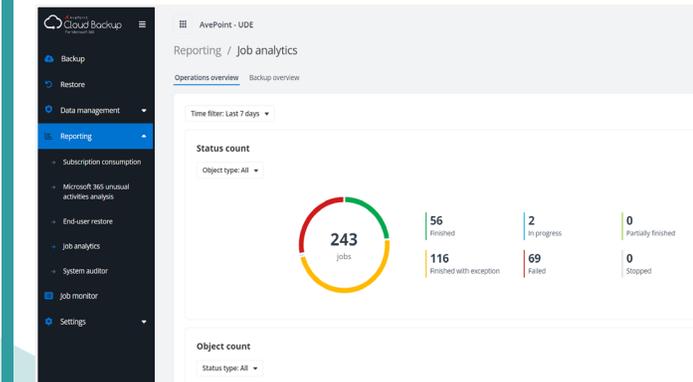

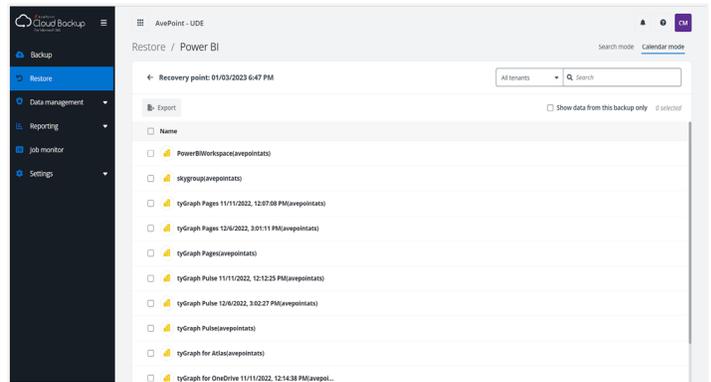

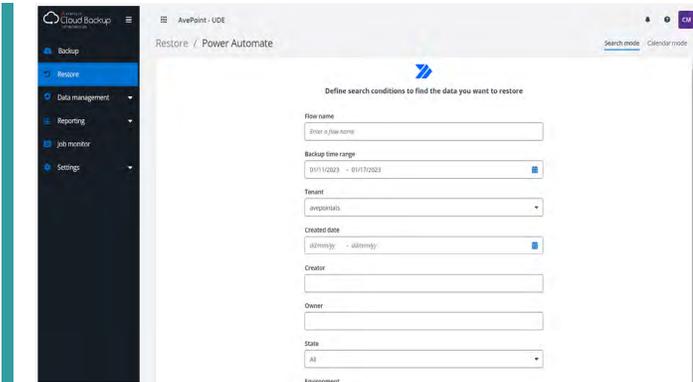

Comprehensive Backup

- Near-zero configuration for daily backup plans and target protection is up to four backups per day (or every six hours).

- Protection for Power Platform for Power BI workspaces, and Power Automate. Support for Power Apps coming soon.

- Built-in business rules and filters enable you to quickly choose which content you want to backup.

- Store backups in our scalable Azure Storage with minimal configuration, or in your cloud or data center of choice with support for Microsoft Azure, Amazon S3, Dropbox, and any data destination accessible via Secure File Transfer Protocol (SFTP), Transfer Protocol (FTP) and any S3 compatible storage.

Granular Restore

- On-demand, granular recovery of Power BI workspaces and Power Automate flows to the online or offline storage location of your choice.

- Perform security rollbacks to undo unintended permissions changes.

- Monitor your daily changes, detect unusual activity as well as potential ransomware attack events at an early stage, investigate the issue preemptively, and quickly restore from a good backup point with ease.
